ARTMUSE RECORDS RELEASES "BEGINNING IMPROVISATION" METHOD

Julie C. Larson developed a music improvisation method for the twelve instruments most often involved with soloing: *violin, flute, clarinet, alto sax, tenor sax, baritone sax, trumpet, trombone, 'cello, piano, guitar and bass.*

These method e-books with backing audio tracks can be used by music teachers with private studios and in schools with various instrumental groups, as well as by individual students who are self-motivated to increase their performance skills.

The **Beginning Improvisation** e-books are available in PDF/MP3 format for download.

Go to www.BeginningImprovisation.com to order Ms. Larson's method online. Customers may use PayPal for credit card orders.

To order by snail mail, call (510) 636-0945, email info@artmuserecords.com or just download the order form and send your payment by US check or postal money order. CA residents please add sales tax. *Discount specials for music educators are available now.*

Beginning Improvisation is written in two parts that students should learn first before moving on to more complicated chord structures. Part One develops the skills to play over 12-Bar Blues progressions, while Part Two focuses on Dominant 7ths.

Julie C. Larson uses her experience as an effective music educator to break down the necessary skills into smaller pieces, like she did in her own improv lessons with Dave Burns, so that all students can start at their current level and begin playing solos over the backing tracks' virtual rhythm section.

Music educators are eligible to receive discounts when purchasing the **Educator's Package** (all 12 PDF books, MP3 audio + practice CDs), the **Strings Package** (Violin, 'Cello, Piano, Guitar, Bass PDF e-books + MP3s) or the **WW/Brass Package** (Flute, Clarinet, Saxophones, Trumpet, Trombone PDF e-books + MP3s).

For more information, contact Artmuse Records at (510) 636-0945 or e-mail julie@artmuserecords.com
